

We can have Double Happiness (囍)
with sharks in our seas instead of our bowls.

珍愛海裡的鯊魚及稀珍 而非碗裡的魚翅 讓今晚-囍-事成雙

Dear Guest,

We are honoured to have you celebrate our special night with us.

We have decided not to serve shark fin soup at our wedding banquet and this is why:

- * Shark fin soup is pushing sharks to the brink of extinction. On average, 38 million sharks are killed every year just to make shark fin soup.
- * The devastation of shark populations threatens the stability of marine ecosystems in ways we cannot predict.
- * The shark finning industry uses cruel and wasteful practices.
- * Shark fin has mercury, which is harmful for our bodies and health.

By choosing to Stop the Soup, we can save up to one shark per table. Tonight, we want to make a difference by celebrating the sharks in our seas instead of the sharks in our bowls.

Thank you for taking part on our special night and supporting our decision to Stop the Soup.

Stop the Soup. To learn more, visit SharkTruth.com

各位來賓，

我們很榮幸各位能齊聚一堂在此一同慶祝這一個非常特別的夜晚。

基於以下原因，我們決定今晚的宴席上不設魚翅，而以其他豐盛的菜餚作為代替：

- * 魚翅的食用導致每年有三千八百萬條鯊魚慘遭捕殺的命運，幾近瀕臨絕種。
- * 鯊魚生態的破壞大幅的影響海洋生物的平衡，造成了我們所無法預計的傷害。
- * 獵取鯊魚鰭的行為是殘忍而且浪費的。
- * 魚翅內有高含量的水銀，對我們的身體和健康有害。

拒食魚翅的決定讓每一桌就能挽救一條鯊魚慘遭獵捕的命運。今晚我們希望為地球出一分力，珍惜在海裡的鯊魚，而不是碗裡的魚翅。

感謝各位與我們共襄盛舉，及支持我們的決擇，一起對鯊魚保育盡一份心力。
